PROFESSIONAL SUMMARY

Dynamic finance professional with 2+ years of hands-on experience in derivatives execution, order management, and real-time market operations in India's index derivatives market. Managed client accounts by handling order placement, trade execution, and portfolio updates — providing responsive, client-first service and building trust through clear communication and timely execution. Proven expertise in executing high-value trades across NIFTY and SENSEX, managing proprietary capital of ₹2 Crore, and operating under pressure in fast-moving markets. Now seeking to leverage deep market knowledge and execution skills in a client-facing Equity Dealer or Retail Dealer role, where I can combine technical expertise with strong relationship-building to deliver best-in-class order execution for clients.

KEY SKILLS & COMPETENCIES

Execution: Equity & Derivatives Order Execution, Multi-leg Options Strategies, Terminal Operations (BSE/NSE)
Market Knowledge: Index Derivatives (NIFTY/SENSEX), Option Greeks, IV Analysis, Open Interest, Market Microstructure
Strategies: Calendar, Diagonal, Butterfly Spreads, Straddles, Delta-Neutral, Pair Trading, Arbitrage
Client Skills: Client Relationship Management, Order Execution for Clients, Interpersonal Communication, Stakeholder Coordination, Trade Reporting
Risk & Compliance: Real-time Risk Monitoring, Drawdown Control, SEBI Regulatory Framework, NISM Certified
Tools & Analysis: Technical Analysis, Fundamental Analysis, Algo Strategy Execution, Volatility Analytics

WORK EXPERIENCE

RM – Dealing | Religare Broking Limited | Mumbai

May 2026 – Present

- Executing equity and derivatives orders for retail clients across NSE and BSE platforms.
- Assisting clients with trade execution, margin-related queries, and portfolio updates.
- Providing market updates and supporting clients in managing their trading positions.
- Ensuring compliance with internal risk controls and regulatory guidelines.

Derivatives Trader | Jainam Broking Ltd | Mumbai

Dec 2025 – March 2026

- Managing and deploying ₹2 Crore proprietary margin across index derivative strategies on live trading terminals.
- Executing complex multi-leg options strategies including Calendar, Diagonal, Butterfly Spreads, and Straddles with precision timing.
- Structuring Delta-Neutral and Gamma-High portfolios based on real-time volatility outlook and market conditions.
- Coordinating with internal stakeholders (risk desk, back-office, compliance) on trade confirmations and settlements — building foundation for client-facing communication.
- Conducting live volatility analysis using IV Rank, IV Percentile, and skew interpretation to inform execution decisions.
- Managing real-time portfolio risk using Option Greeks (Delta, Gamma, Theta, Vega, Rho) and enforcing strict drawdown controls.
- Executing statistical pair trading and arbitrage strategies between NIFTY and SENSEX across exchanges.

Derivatives Trader | Mansukh Securities & Finance Ltd | Mumbai

Apr 2024 – Nov 2025

- Managed client accounts by handling order placement, trade execution, and portfolio updates across equity and derivatives segments.
- Executed algorithmic and discretionary trading strategies in index futures and options, including Calendar, Diagonal, and Butterfly spreads.
- Monitored market volatility, option Greeks, and trade performance to support execution and risk management decisions.
- Conducted market research and analysis of macroeconomic factors, identifying trading and arbitrage

opportunities in index derivatives.

Finance Intern | **Motilal Oswal Financial Services Ltd** | Mumbai
Apr 2023 – Jul 2023

- Performed Fundamental and Technical Analysis of various stocks in the Indian financial market.
- Gained early exposure to broking operations and client-facing financial services environment.
