GAJENDRA JADHAV

Derivatives Trader

+91 9920563289 • gajendraindex03@gmail.com • Dombivali, Maharashtra

SUMMARY

Results-driven Derivatives Trader with experience in options strategies (collars, spreads, calendar spreads), risk-adjusted returns, Greeks interpretation, and backtesting. Adept at client relationship management, financial advisory, and identifying new business opportunities.

EXPERIENCE

Trader / Business Development
Aug 2025 – Present

Independent | Dombivali, Maharashtra

- Developed and deployed a proprietary algorithmic trading system for Indian equity derivatives (Nifty/BankNifty) and BTC Options, automating strategy execution and trade management.
- Managed algo-based account handling services for clients, running systematic strategies across Indian markets and crypto (BTC Options) with defined risk parameters per account.
- Onboarded and serviced clients by providing transparent performance reporting, strategy walkthroughs, and ongoing support — driving business growth through referrals and retention.
- Continuously backtested and optimized algo logic to adapt to changing market conditions across both Indian derivatives and global BTC options markets.

Trader
May 2025 – July 2025

NU Fintech | Thane, Maharashtra

- Executed Collars, Bull Call Spreads, and Bull Put Spreads to generate consistent risk-adjusted returns.
- Monitored Greeks (Delta, Gamma, Theta, Vega) and macro events to adjust positions and optimize performance.
- Backtested historical data to refine entry/exit points, reducing drawdowns and improving win rates.

Derivative Trader
Feb 2024 – April 2025

Mansukh Securities | Thane, Maharashtra

- Developed Calendar Spread strategies capitalizing on time decay and implied volatility shifts.
- Applied Nifty Straddle-based Calendar Spreads across expiries; leveraged volatility during earnings & macro events.
- Monitored live order flow, market sentiment, and risk exposure to support strategic decision-making.

Financial Advisor
Jan 2023 – Mar 2023

Motilal Oswal | Mumbai, India

- Advised clients on equity, mutual funds, and portfolio management aligned with individual financial goals.
- Built client base through relationship management; used research reports and analytics for informed decisions.
