C.V Nikhil Kumar Reddy

Mumbai, India nikhilkumar9492@gmail.com +91 9003451063 LinkedIn

Professional Summary

System Engineer with hands on experience in software automation, system configuration,data management and execution of site acceptance test(SAT).Experienced in customer interactions, requirement understanding and delivering reliable system solutions and operational environment.

Experience

SCADA Engineer *Mumbai, India*
Siemens Ltd. *June 2024 – Present*

- Working as a SCADA Engineer on the ADMS project for Torrent Power, supporting real-time monitoring and control of the power distribution network.
- Involved in configuration and validation of SCADA databases, point mapping, and alarm management for substations and RMUs. Actively worked with Distribution Network Applications (DNA) and Switching Procedure Management (SPM) to support network operations and switching activities.
- Participated in Site Acceptance Testing (SAT) and system testing to ensure proper integration of RTUs, IEDs, and field devices with the SCADA system. Coordinated with field teams and control room operators to troubleshoot issues, verify data accuracy, and ensure smooth system commissioning.
- Supporting multi-site SCADA operations, enabling centralized monitoring and control of geographically distributed assets, and troubleshooting communication failures, data inconsistencies, and system performance issues.

Software Engineer *Kolkata, India*
Capgemini *Oct 2021 - Dec 2023*

- Worked as a Manual Test Engineer on enterprise-level financial applications for Synchrony, ensuring high-quality software delivery.
- Involved in requirement analysis, test case design, test execution, and defect reporting based on functional and business requirements.
- Actively participated in test scenario preparation, test data creation, and defect lifecycle management using defect tracking tools (e.g., JIRA).
- Collaborated with developers, business analysts, and QA leads to understand application flows and resolve defects efficiently.

Education

Bachelor of Technology in Electrical and Electronics Engineering *2017 – 2021*
Saveetha Engineering College CGPA:7.00/10

XII, Intermediate *2015 – 2017*
Sri Gayathri Junior College CGPA:8.5/10

X, SSC *2015*
DAV High School CGPA:8.5/10

Projects

Identification of power distribution breakage in transmission line.

- Worked on a system to detect power line breakage and send signal to the control room.
- My role included designing the circuit, testing the system and ensuring proper signal transmission for monitoring of the distribution network.

Achievements

- • Successfully completed SAT FAT for Torrent Power project.
- • Effectively addressed and incorporated customer feedback by implementing necessary modifications and improvements within stipulated timelines.
- • Improved communication stability by troubleshooting and resolving protocol configuration issues.
- • Demonstrated strong problem-solving skills, technical expertise, and customer coordination to deliver a compliant and optimized solution, contributing to overall project success and client satisfaction.

Additional Information

Known Languages: English,Hindi,Tamil,Telugu
Soft Skills: Team Work, Communication and Problem Solving
Hobbies: Watching Movies, Playing Cricket, EXploring New Places
