Current Location: Chittaranjan, West Bengal, India
Notice Period: 1 Month
Open to Relocation: Yes

PROFESSIONAL SUMMARY

Project Manager & Product Specialist | 4+ years delivering mobile and web applications, CRM implementations and user-centric digital solutions across logistics, healthcare and e-commerce sectors. Hands-on expertise in Figma (wireframes, prototypes, UI flows, ERDs), deep proficiency in Agile, Scrum and Waterfall methodologies and proven cross-functional team leadership of 30+ members across the full SDLC from requirement scoping to go-live.

Demonstrated track record in sprint planning, product backlog management, UAT coordination and end-to-end requirement documentation (BRD | FRS | SRS | Test Plans | Go-Live Reports), consistently translating complex business needs into precise technical specifications. Expert in CRM ecosystems (Zoho Suite | Salesforce | GoHighLevel | SugarCRM | Microsoft Dynamics 365), stakeholder management and change management, delivering business-critical solutions on time, within scope and within budget across 15+ projects.

CORE SKILLS & COMPETENCIES

- **Project Management:** Agile | Scrum | Waterfall | Sprint Planning | Backlog Management | Risk Mitigation | RAID Log | Release Management | SDLC | Change Management | Vendor Management | SLA Management
- **Product Development:** Mobile & Web App Development | Product Roadmap Ownership | Ideation to Launch (MVP) | Wireframing | Prototyping | Figma | App Store Readiness | User Stories | Product Backlog | Feature Prioritisation | OKR | KPI Tracking
- **Business Analysis & Documentation:** Requirements Gathering | BRD | FRS | SRS | User Stories | Test Plans | Go-Live Reports | UAT Coordination | Change Requests | Stakeholder Communication | Gap Analysis | Process Mapping | ERD
- **CRM Systems:** Salesforce | Zoho Suite | GoHighLevel | SugarCRM | Microsoft Dynamics 365
- **Tools & Platforms:** Jira | Confluence | Trello | Git | Postman | Figma | Zoho Analytics | Google Sheets | MS Project
- **Quality Assurance & Testing:** End-to-End Testing | Unit Testing | Integration Testing | Regression Testing | UAT | Test Case Design & Execution | Defect Tracking | QA Coordination
- **Proposal & Reporting:** Proposal Management | Scoping & Estimation | Client Communication | Project Dashboards | Reporting (Zoho Analytics | Salesforce | Sheets)
- **Technical Skills:** Python | JavaScript | AngularJS | HTML/CSS | Data Visualisation | Dashboard & Report Creation | REST APIs | Postman
- **Leadership & Collaboration:** Cross-functional Team Management (30+) | Mentoring | Hiring | Task Delegation | Delivery Ownership | Client Relationship Management

CORE COMPETENCIES & PROFESSIONAL STRENGTHS

- **Business & Technology Bridge**: BRD, FRS, SRS, ERD documentation across 15+ projects, eliminating requirement ambiguity and development rework.
- **Leadership & Delivery Ownership**: Cross-functional team leadership (30+ members) across full SDLC, sprint planning, backlog grooming and release management.
- **Client & Stakeholder Management**: 15+ simultaneous client relationships, 95%+ satisfaction rate through Agile delivery and transparent stakeholder reporting.
- **Mobile & Web Product Development**: End-to-end ownership across logistics, healthcare and e-commerce - Figma, MVP, UAT, App Store readiness and post-launch optimisation.
- **Quality Assurance**: Test case design, defect tracking and regression testing — zero critical bugs at go-live across all releases.
- **Continuous Learning**: Google PM, Microsoft MTA, Coursera certified. Currently pursuing PMP and CSM.

PROFESSIONAL EXPERIENCE

SNS System | Progressive roles within the same organisation | Jul 2021 – Present

Project Manager | Apr 2022 – Present

- Delivered 15+ CRM, mobile and web application projects across logistics, healthcare and e-commerce sectors, managing full SDLC from requirement scoping to post-launch support using Agile, Scrum and Waterfall methodologies.
- Led cross-functional teams of 30+ members, including engineers, QA, UI/UX designers and business analysts across concurrent sprints, ensuring on-time delivery within defined scope and budget.
- Directed end-to-end product lifecycle for logistics delivery applications (ride management, billing automation, shipping integration), reducing manual billing effort by 40% through seamless CRM and app integration.
- Owned product roadmap, backlog management and sprint planning using Jira and Confluence, achieving consistent sprint velocity and reducing backlog debt by 30% over 6 months.
- Designed product flows, UI wireframes and prototypes in Figma, converting business requirements into detailed BRD, FRS, SRS and test plans for engineering and QA handoff.
- Coordinated UAT cycles across 10+ releases, authoring test cases, tracking defects and managing change requests to ensure zero critical bugs at go-live.
- Built and maintained project dashboards and performance reports using Zoho Analytics, Salesforce and Google Sheets, providing real-time visibility to 15+ stakeholders across client and internal teams.
- Managed proposal lifecycle - scoping, effort estimation, client presentations and sign-off - with an 80%+ proposal approval rate, directly contributing to business growth.
- Served as primary client point of contact across all project phases, managing stakeholder expectations, escalation resolution and change management to maintain a 95%+ client satisfaction rate.
- Mentored and onboarded 8+ junior team members on Agile practices, documentation standards and delivery workflows, improving team productivity and reducing ramp-up time by 25%.

Talent Acquisition Manager | Jan 2022 – Mar 2022

- Built end-to-end talent pipelines across software development, sales and marketing functions, reducing average time-to-hire by 20% through structured screening and candidate matching processes.
- Conducted full-cycle recruitment for 10+ roles, collaborating with department heads to define job requirements, evaluate candidates and ensure alignment with business goals and team culture.

Software Engineer | Jul 2021 – Dec 2021

- Developed scalable front-end and back-end modules for 3+ custom web applications using AngularJS, Python and HTML/CSS, collaborating with cross-functional teams across the full development lifecycle.
- Contributed to REST API integrations and internal tooling, improving application performance and reducing page load times through front-end optimisation.
- Initiated machine learning proof-of-concept projects using Python and data preprocessing pipelines, laying the groundwork for AI feature integration in client-facing products.

INTERNSHIPS

SNS System | Software Developer Intern | Nov 2020 – Jun 2021

- Developed and deployed 5+ responsive landing pages for a Social Networking Service platform using HTML, CSS and JavaScript, improving page load speed by 20% and measurably enhancing user engagement and interface performance.
- Integrated Zoho CRM modules, including contact management, lead tracking and email marketing automation workflows, reducing manual follow-up effort by 30% for the internal sales team.
- Wrote and executed 50+ test cases covering functional, integration and regression testing scenarios, analysing results and logging defects to ensure product quality and release reliability.

Kyrion Technologies | Data Science Intern | Jun 2019 – Jul 2019

- Built 2+ supervised machine learning predictive models using Python (Pandas, NumPy, Scikit-learn), performing end-to-end data preprocessing, feature engineering and model evaluation with measurable accuracy improvements.
- Conducted exploratory data analysis (EDA) on real-world datasets, generating visual insights using Matplotlib and Seaborn to support data-driven decision making.

TechieShubhdeep IT Solutions | R&D Engineer Intern | Sep 2019 – Feb 2020

- Contributed to AI R&D initiatives by designing and executing algorithm feasibility tests, validating model performance against defined benchmarks and documenting findings for senior engineering review.
- Supported proof-of-concept development for 2+ AI-driven features, collaborating with the R&D team on iterative testing cycles and technical documentation.

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science Engineering, IPS College of Technology & Management, Gwalior, Madhya Pradesh, India, Rajiv Gandhi Proudyogiki Vishwavidyalaya (RGPV) | Graduation: 2021 Overall CGPA: 8.4/10.0 | Final Year CGPA: 10.0/10.0 - Top of Batch (7th & 8th Semester)

Relevant Coursework: Software Engineering | Data Structures & Algorithms | Database Management Systems (DBMS) | Object-Oriented Programming (OOP) | Computer Networks | Operating Systems | Machine Learning | Artificial Intelligence | Web Technologies | Project Management Fundamentals

Academic Highlights:

- Completed final year project in developing a predictive ML model using Python (Pandas | Scikit-learn | NumPy | Matplotlib | Seaborn), applying data preprocessing, feature engineering and data visualisation to solve a real-world business problem.
- Actively participated in technical workshops, coding competitions and college-level sports events, demonstrating leadership and cross-functional collaboration beyond academics.

CERTIFICATIONS

- Google Project Management Professional Certificate | Google / Coursera | Nov 2022 | Credential ID: RTRGK9DD8AWS
- Machine Learning A-Z: Python & R in Data Science | Udemy | Mar 2020 | Credential ID: UC-82eb5a1c
- Big Data & Data Science | HPE Education Services | Jun 2019 | Credential ID: HPE/CoC/WB/1906-021515
- Data Science Math Skills | Duke University / Coursera | May 2020 | Credential ID: 7MLH2JYUQJVK
- MTA: Introduction to Programming Using Python | Microsoft | Jun 2020 | Credential ID: Verified
- MTA: Software Development Fundamentals | Microsoft | Jul 2020 | Credential ID: bCF8-s28V

PUBLICATIONS & RESEARCH

Book Chapter: "Big Data & Its Future" | *Advances in Computer Science, Volume 2* | Contributing Author

Authored a full book chapter examining the evolution, real-world applications and future trajectory of Big Data technologies - covering distributed computing frameworks, real-time data processing pipelines, enterprise-scale data management strategies and the role of predictive analytics in modern data-driven organisations. Domain: Big Data | Data Analytics | Distributed Computing | Scalable Systems | Predictive Analytics | Enterprise Data Management

AWARDS & RECOGNITION

- Represented state in competitive Football and Air Pistol Shooting, demonstrating sustained discipline, performance under pressure and goal-oriented training - skills directly transferable to high-stakes project delivery environments.
- Achieved college-level championship titles in Volleyball and Basketball, evidencing strong team leadership, strategic coordination and cross-functional collaboration in competitive settings.
- Certified State-Level Referee - Badminton | Issued by State Badminton Association, India - demonstrating rule governance expertise, impartial decision-making and stakeholder management under pressure.

LANGUAGES

- English: Full Professional Proficiency

VOLUNTEERING & COMMUNITY ENGAGEMENT

Art of Living Foundation | Volunteer & Program Participant | Jun 2020 – Present

- Contributed to community well-being initiatives over **5+ years**, demonstrating long-term commitment and people-centric leadership.
- **Completed Happiness Program -** breathwork (Sudarshan Kriya), stress management and mindfulness applied to high-pressure project delivery.
- **Completed Advanced Meditation Program & Sahaj Samadhi -** sustained mental clarity, cognitive agility and deep focus across complex multi-stakeholder environments.
- **Completed DSN (Dynamism for Self & Nation) -** transformational leadership program covering conflict resolution, inner stability and cross-functional team communication.
- **Completed Guru Pooja Program -** values-based leadership, discipline and professional accountability.
