PROFESSIONAL SUMMARY

Results-driven Scrum Master with 4+ years of experience leading Agile teams using Scrum and SAFe methodologies to deliver high-quality software and business solutions. Skilled in facilitating Agile ceremonies, removing impediments, managing stakeholder communication, and driving continuous improvement. Proficient in Azure DevOps, Jira, Confluence, and Rally for sprint planning, backlog management, and release tracking. Strong collaborator with a focus on team productivity, Agile maturity, and successful project delivery.

WORK EXPERIENCE

Application Development Analyst / Scrum Master **March 2022 - Present**

ACCENTURE | Pune

- Facilitated Scrum and SAFe ceremonies including sprint planning, stand-ups, reviews, retrospectives, and PI planning to ensure smooth Agile delivery and continuous improvement.
- Collaborated with RTE, Product Owners and stakeholders to manage backlog readiness, prioritize user stories, refine requirements, and align delivery with business goals and release timelines.
- Managed sprint execution, delivery tracking, and Agile workflows using Azure DevOps, Jira, and Confluence while maintaining dashboards for velocity, burndown, sprint progress, and release readiness.
- Coordinated with cross-functional onshore/offshore teams to manage dependencies, align project milestones, and support successful Data & Analytics project delivery.
- Identified and resolved impediments, risks, and issues, escalating critical concerns when needed to maintain delivery predictability and team efficiency.
- Communicated regularly with Engagement Managers, project team members, and representatives from various functional and / or technical teams, including escalating any matters that require additional attention and consideration from engagement management.

Additional Responsibilities

- Managed demand intake, resource planning, and project prioritization across multiple engagements.
- Oversaw project timelines, budgets, risks, and dependencies to support successful delivery execution.
- Collaborated with stakeholders and cross-functional teams to drive process improvements and operational efficiency.
- Applied strong analytical and organizational skills to manage multiple projects and delivery priorities effectively.

- Independently and collaboratively led client engagement workstreams focused on process improvement, optimization, and transformation, including implementing leading practice workflows, addressing quality gaps, and driving operational outcomes.
