KUNDAN ASHOK MAHAJAN

Data Analyst | Business Intelligence | Data Operations

kundanmahajan.km04@gmail.com | +91-7020219275 | linkedin.com/in/kundanmahajan01 | github.com/kundanmahajankm04-collab

Pune, Maharashtra, India — Open to Relocation (incl. Gurgaon/NCR) & Remote Opportunities

PROFESSIONAL SUMMARY

Data Analyst with 4+ years of combined experience across data operations, quality analytics, financial/market data analysis, and business intelligence, including 1+ year in a dedicated AI/ML data quality role at Amazon. Proficient in SQL, Python, Power BI, Tableau, and Advanced Excel for transforming complex datasets into actionable insights. Track record of improving operational efficiency by 20%, increasing team productivity by 30%, and supporting data-driven business decisions across cross-functional teams. Strong foundation in quality engineering, root cause analysis, KPI tracking, process optimization, and stakeholder collaboration.

TECHNICAL SKILLS

Data Analytics: SQL (Joins, CTEs, Window Functions, Subqueries), Python (Pandas, NumPy, data analysis & automation), Power BI, Tableau, Advanced Excel, Data Cleaning, Data Validation, Exploratory Data Analysis (EDA)
Business Intelligence: KPI Development, Dashboard Design, Performance Reporting, Trend Analysis, Forecasting, Data Visualization
Power BI: DAX, Power Query, Data Modeling, Power BI Service
Quality & Process Improvement: Root Cause Analysis, Pareto Analysis, 5 Why Analysis, Fishbone Analysis, Statistical Process Control, ISO 9001
Tools: Microsoft Office Suite, Google Workspace, Git, GitHub

PROFESSIONAL EXPERIENCE

Data Analyst — Data Operations & AI/ML Data Quality — *Amazon*, *Bengaluru*
Aug 2024 – Jan 2026

Managed large-scale data annotation and validation workflows using SQL and Python, supporting AI/ML initiatives and high-quality training datasets.
Performed quality audits and data accuracy checks, contributing to a 20% reduction in operational turnaround time.
Collaborated with data scientists, ML engineers, and product teams to resolve data inconsistencies and improve dataset quality.
Developed standardized QA procedures and documentation, increasing team productivity by 30%.
Monitored workflow metrics, tracked KPIs, and supported continuous process improvement initiatives.
Ensured compliance with quality standards for training and validation datasets.

Quality Inspector — Data & Process Analysis — *Atlas Copco*, *Pune*
May 2022 – Jul 2024

Conducted incoming, in-process, and final inspections for pneumatic tools and compressor components.
Analyzed inspection data using Excel dashboards to identify recurring defect patterns and supplier quality trends.
Applied Pareto Analysis and Root Cause Analysis methodologies to identify causes behind 80% of recurring defects.
Created weekly and monthly management reports highlighting quality KPIs and operational performance.
Supported ISO 9001 quality management requirements and audit readiness activities.

Service Operations & Sales Coordinator — *Sanjay Hyundai*, *Pune*
Mar 2021 – Feb 2022

Managed operational reporting for vehicle servicing, inventory, and warranty claims.
Built Excel-based inventory tracking systems improving stock planning and forecasting accuracy.
Tracked sales KPIs and customer retention metrics through dashboard reporting.
Contributed to a 12% increase in repeat customer business using data-driven engagement strategies.

Independent Equity & Options Trader — Quantitative & Data Analysis — *Self-Employed*, *Nashik*
Apr 2019 – May 2023

Developed quantitative models in Excel to monitor portfolio performance, risk exposure, and trading strategy effectiveness.
Built dashboards tracking P&L, drawdowns, position sizing, and performance metrics.
Analyzed market data including price action, volume trends, options Greeks, and volatility indicators.
Applied analytical techniques to support systematic decision-making and risk management.

PROJECTS

Sales Performance Dashboard (Power BI)
Designed interactive dashboards to analyze sales performance, revenue trends, and KPI metrics.
Implemented DAX calculations and drill-through functionality for detailed business insights.

HR Analytics Dashboard (Power BI)
Developed employee attrition and workforce analytics dashboards.
Automated KPI reporting workflows and workforce performance tracking.

Stock Market Performance Tracker (Excel, Power BI & Python)
Built dashboards to monitor portfolio returns, risk exposure, and trading performance.
Used Python scripts to clean and integrate dynamic data sources for real-time portfolio tracking.

EDUCATION

Bachelor of Engineering (Mechanical Engineering)
Savitribai Phule Pune University, 2015 – 2018

Diploma in Mechanical Engineering
Maharashtra State Board of Technical Education (MSBTE), 2011 – 2015

CERTIFICATIONS

Microsoft Certified: Power BI Data Analyst Associate (PL-300)
IBM Data Analysis with Python
IBM Data Fundamentals
IBM Data Science with Python

KEY ACHIEVEMENTS

Reduced operational turnaround time by 20% through workflow optimization at Amazon.
Improved team throughput by 30% through standardized QA processes and documentation.
Identified root causes behind 80% of recurring quality defects using Pareto Analysis.
Contributed to a 12% increase in repeat customer sales through KPI-based performance tracking.
