CURRICULUM VITAE

Name- Amulya Kishor Chobe **Email-**

OBJECTIVE:

To contribute my skills in Manufacturing and Process Engineering to a growth-oriented organization, driving continuous improvement, operational excellence, and business success while enhancing my professional expertise.

SUMMARY:

Industrial Engineering and Manufacturing Excellence professional with experience in productivity improvement, Lean Manufacturing, line balancing, work content distribution, time & motion studies, capacity planning, automation, NPI/NPD, and continuous improvement. Experienced in implementing Kaizen, 5S, VSM, TPM, OEE, process standardization, and cost reduction initiatives. Strong exposure to SAP, AutoCAD, manufacturing layouts, PFMEA, tooling & fixture coordination, and cross-functional project management.

SKILLS:

- Industrial & Methods Engineering
- Productivity Improvement
- Line Balancing & Work Content Distribution
- Time & Motion Study
- Lean Manufacturing – 5S, Kaizen, VSM, TPM
- Automation & Manufacturing Improvement
- NPI / NPD & APQP
- Capacity Planning & Manpower Optimization
- OEE & Productivity Analysis
- PFMEA & Control Plan
- Process Planning & Standardization
- Factory Layout & Ergonomics
- Tooling & Fixture Coordination
- FMP & Project Management
- SAP – Routing, PR & PO
- AutoCAD & MS Excel
- Cross-functional Collaboration
- Problem Solving & Continuous Improvement

Freudenberg Filtration Technologies India Pvt. Ltd.

- Role: Senior Engineer - Manufacturing Excellence
  Duration: Jan 2026 - Present

- Location: Pune, Maharashtra
- Key Responsibilities:

- Coordinate the end-to-end execution of the new Consumer Filter Division project, from initial planning and concept development through layout design, equipment and tooling procurement, infrastructure readiness, process development, trials, validation, and production implementation.
- Lead productivity improvement projects to enhance safety, quality, cost, delivery, and operational efficiency.
- Drive Lean Manufacturing, Kaizen, 5S, VSM, TPM, and waste reduction initiatives.
- Conduct time and motion studies, line balancing, and work content distribution to optimize manpower and productivity.
- Perform capacity planning and resource utilization analysis for manufacturing operations.
- Support NPI/NPD, APQP, process planning, and new product industrialization activities.
- Coordinate cross-functional teams, including Production, Quality, Maintenance, Engineering, Supply Chain, Purchasing, and suppliers, to achieve project milestones and ensure timely execution.
- Track project timelines, resource requirements, material availability, equipment readiness, and trial activities to ensure smooth project implementation.
- Implement process improvements and automation opportunities to reduce manual effort and improve productivity.
- Develop and standardize SOPs, Work Instructions, PFMEA, Control Plans, and other process documentation.
- Prepare manufacturing layouts and workstation designs using AutoCAD and ergonomic principles.
- Coordinate tooling, jigs, fixtures, and equipment requirements with suppliers and internal teams.
- Manage SAP Product Routing, PR/PO processing, and CIJ activities.
- Lead cost reduction and continuous improvement projects through waste elimination and process optimization.
- Analyze manufacturing data using MS Excel to improve productivity, capacity utilization, and operational performance.
- Drive structured problem-solving and Kaizen initiatives to achieve measurable manufacturing improvements.

Uno Minda Rinder Division (2WLG)

- Role: Senior Executive (NPD)
- Duration: 4 July 2022 to 25 Dec 2025
- Responsibilities: include factory layouts, capacity calculations, new product line integration, hard coat oven implementation, antifog setup implementation, cycle time studies, PFMEA, Control Plan, PFD/PFC, SAP routing, TPM JH pillar activities, Kaizen

activities, ECRN/PCRN management, production rule implementation, material handling optimization, RFQ preparation and BEST activities.

Parason Machinery Pvt. Ltd. (Aurangabad)

- Role: Operational Excellence Intern
- Duration: 1 July 2021 to 31 Dec 2021
- Responsibilities include time studies, factory layout design, TPM JH activities, 5S surveys, TWI-JI training and plant improvement projects.

EDUCATIONAL CREDENTIALS:

- B-Tech in Industrial Engineering, VIT Pune (2022), 8.35 SGPA
- Diploma in Mechatronics, Indo German Tool Room, Aurangabad (2019), 76.93%
- SSC, Sharda Mandir Girls High School, Aurangabad (2016), 81.20%

PERSONAL INFORMATION:

- Contact:
- DOB: 31 Dec 1999
- Languages: Hindi, English and Marathi
