KEY PROJECTS

Zipcpq Admin Panel and UI

Direct Conveyors | Conway Machine

- Developed a complex product configuration and quoting system using Laravel and jQuery.
- Implemented JavaScript-based rules for efficient product customization.
- Reduced quote generation time and improved sales efficiency.

Direct Conveyors

- Created an online conveyor configurator, enabling users to explore and customize various conveyor products, including flat belts and dual lane indexing timing belts.
- Integrated a photo gallery to showcase conveyor applications and streamlined contact forms for customer inquiries.

Conway Machine

- Designed and developed a comprehensive product catalog, featuring detailed categories and images for machinery parts.

- Enhanced user experience with intuitive navigation and easy access to product information.

Liune Doors (www.liunedoor.com)

- Developed a modern interior door website using React and TypeScript.
- Built features such as a multi-language product catalog and user account system.
- Enhanced site performance and user experience through collaboration with design and development teams.

Newton MFG (newtronmfg.com)

- Created an online CNC machine shop website using PHP and jQuery.
- Implemented a quote request system to streamline client interactions.
- Increased the number of online quote requests.

Get Help Now (gethelpnow.in)

- Built an ambulance dispatch platform using Next.js and TypeScript.
- Implemented real-time tracking and doctor-on-call features.
- Improved emergency response times.

EDUCATION

- **XII (2014)** - RBSE, 68%
- **X (2012)** - RBSE, 59%

CORE STRENGTHS
