Atul Pardhi | Industrial Engineer

Contact no.: 9309885856

Email ID: atulpardhi03@gmail.com

Profile Summary

Results-oriented Industrial Engineer with 6 years of experience specializing in process optimization, facilities modification, and operational efficiency. Expertise in designing, analyzing, and improving workflows to maximize productivity while minimizing costs. Proven track record in leading facility layout modifications and redesigns to streamline operations and enhance capacity utilization. Skilled in applying lean manufacturing principles, Six Sigma methodologies, and advanced software tools (such as AutoCAD, SAP) to deliver data-driven solutions. Adept at collaborating across teams to implement strategic changes that support both business objectives and customer satisfaction.

Highlights

Layout Planning & Modification

- Space & Resource Utilization: Expertise in maximizing the use of available space, improving inventory flow, and reducing the distance traveled for materials and personnel within the facility
- Strong project management skills, successfully leading facility design projects from concept to implementation, ensuring adherence to timelines, budgets, and quality standards
- Successfully relocated over 30+ facilities to integrate a new program CAPEX within the existing plant, optimizing operational efficiency through strategic improvements

Process Optimization & Industrial Engineering

- Conducted time studies using MOST methodology (Basic, Mini, MODAPTS) to establish standardized work processes.Utilized value stream mapping (VSM) to identify and eliminate 23% of non-value-added (NVA) activities across production workflows.
- Improved assembly line balancing through takt time analysis, resulting in an 18% increase in productivity.
- Led the design and implementation of lean manufacturing initiatives, reducing manpower requirements through line configuration adjustments (LCA).
- Spearheaded company-wide 5S implementation, improving tool retrieval time by 40%.

Productivity Enhancements

- Enhanced overall equipment effectiveness (OEE) by achieving 80% through the implementation of SMED.
- Created capacity planning models (CapEx)

Experience

TATA Advanced Systems Ltd, Nagpur ***May 23 – Presnt***

Led the modification of over 16 facilities to optimize space utilization and enhance operational efficiency within the existing plant.
Monitored daily, weekly, and monthly shop floor performance, presenting actionable insights and status updates to senior management (VP and HOD).
Led 3P (Production Preparation Process) planning with cross-functional teams, aligning departmental requirements to streamline production readiness.
Implemented MOST studies and line balancing in the drilling zone, optimizing space utilization and reducing additional tool requirements, saving ₹40 lakhs.

Prepared PRA (Process Readiness Assessment) and PMR (Process Maturity Review) reports, delivering presentations to customers for project alignment.
Ensured AS9100 audit readiness by preparing documentation and successfully facing internal and external audits.

Production Modeling India, Nagpur. ***Dec 21 – May 23***

Contributed to consultancy services for various multinational companies, focusing on process optimization and efficiency improvements.
Conducted comprehensive time studies, production analyses, and MOST studies to identify bottlenecks and streamline operations.
Implemented line balancing techniques to enhance production efficiency and reduce cycle times.
Collaborated with cross-functional teams to design and optimize production layouts, ensuring seamless workflow and improved productivity.

Mahindra and Mahindra farm division, Nagpur [FES] ***June 18 – Dec 21***

Conducted time studies and implemented lean manufacturing techniques, optimizing production processes and
improving efficiency.
Designed an optimized export frame to improve container loading capacity and enhance overall shipping efficiency

Software Proficiency

M- DAT (MOST Data Acquisition Tool) (Time study software)
MOCHA
MS office [PowerPoint, Excel , word]
AVIX – (SOS creation & VA – NVA analysis)
AUTO-CAD

ACADEMIC DETAILS

Bachelor of Engineering in Mechanical Engineering
Agnihotri college of engineering, Wardha
Board: RTMNU (Rashtrasant Tukadoji Maharaj Nagpur University)
CGPA: 8.27
Year of Graduation: 2022

Diploma in Mechanical Engineering
KDK Nagpur polytechnic Nagpur
Board: MSBTE (Maharashtra State Board of Technical Education)
Percentage: 75.00%
Year of Graduation: 2017

PERSONAL DETAILS

Date of Birth: March 19, 1998
Permanent Address: Plot no. 87, Hindustan Soceity, Navkanya nagar, Pardi, Nagpur – 440035
Gender: Male
Nationality: Indian
Languages Known: Hindi, English, Marathi
Hobbies: Cricket, traveling
