Jun 2013 - Jul 2017

B.Tech in Electrical Engineering
Ch. Devi lal state institute of engineering and technology, Sirsa, Haryana
CGPA- 65%

Mar 2012 - Mar 2013

12th
St. C. R. Sr. Sec. School, Palwal
CGPA-82%

Mar 2010 - Mar 2011

10th
St. C. R. Sr. Sec. School, Palwal
CGPA- 89%

Employment

Jul 2020 - Present

Testing and Validation Engineer
BorgWarner Emissions Systems India Private limited, IMT Manesar Gurgaon Haryana
Job Role and Responsibilities:

- Preparing DVP&R documents and check feasibility.
- Preparing time plan for complete validation.
- Report Generation of all the Validation conducted within the testing lab.
- Conducted testing of components to verify performance and reliability standards.
- Collaborated with cross-functional teams to address validation issues effectively.
- Investigated equipment failures, identified causes, and initiated methods to resolve such issues.
- Documented entire validation process and recorded all changes.
- Maintained and calibrated testing equipment to consistently produce reliable results.
- Maintenance of machines available in testing lab with all necessary check points.
- Responsible for Test conduction according to the required testing standards.
- Outsource Testing from supplier. Teardown & Testing analysis of customer return sample.

- Development of fixture and tooling required for testing as per program.
- Spare management and maintaining spare stock.
- Maintaining validation record and log books.

Professional Electrical testing skills:

- **Hi-pot testing**: IR testing, AC and DC hipot test, continuity testing, Arc detection.
- **DC Motor** : Motor Performance testing, Motor Response testing, Data logging, Motor IR test, Motor load test, Motor resistance measurement.
- **ECU(Motohawk Controller) :** Motohawk programing and controlling through MotoTune software.

Key Technical Expertise:

- **Vibration testing**: Sine and Resonance Durability, Mechanical Shock.
- **Thermal Testing**: Perfomance and Durability testing, Pressure Drop test.
- **Pressure Testing**: Pulsation or Fatigue test, Durability test, High pressure wash test , Pressure Brust test.
- **Environmental Testing**: Climatic chamber test, Thermal Shock test, Salt Spray test, Corrosion test, Low Temp test.

Jun 2018 - Jul 2020

Electrical Maintenance Engineer
Talbros Engineering limited, Faridabad Haryana

Job Role and Responsibilities:

- Preventive Maintenance of all the machines with making schedule and completion of PM within the time.
- Inspected electrical installations for compliance with safety standards.
- Maintained accurate records of maintenance and repair activities.
- Tested electrical systems using specialized instruments such as oscilloscopes and meggers.
- Provided technical support for the installation of new plant production equipment.
- Conducted safety inspections, identified potential hazards, and implemented corrective actions.
- Handling breakdown in AC motors, DC motors, Servo Motors.
- Responsible for breakdown handling occurs in plant.
- Maintaining logbook and data records according to the maintenance purposes.
- Team management of whole maintenance department within the plant.
- Vendor handling & maintaining spare parts.
- Breakdown Analysis.
- Handling customer audits for maintenance department in both electrical and mechanical areas.

Key Technical Expertise:

- CNC Machine(Grinding)
- VMC Machine (Milling)

- Induction Hardening
- Rolling Machine
- MDI testing
- Lathe Machine.

Skills

Test Planning

DVP&R Documentation

Validation Testing

Equipment Calibration

Fault Analysis

Preventive Maintenance

Vendor Management

Fixture and Tooling Development

MS office (Word, Excel, Powerpoint)

Languages

English

Hindi

Hobbies

- Astronomy & Astrophysics
- Swimming
- Dancing
- Singing
